

A view of the moon from the rim of the crater Theophilus.

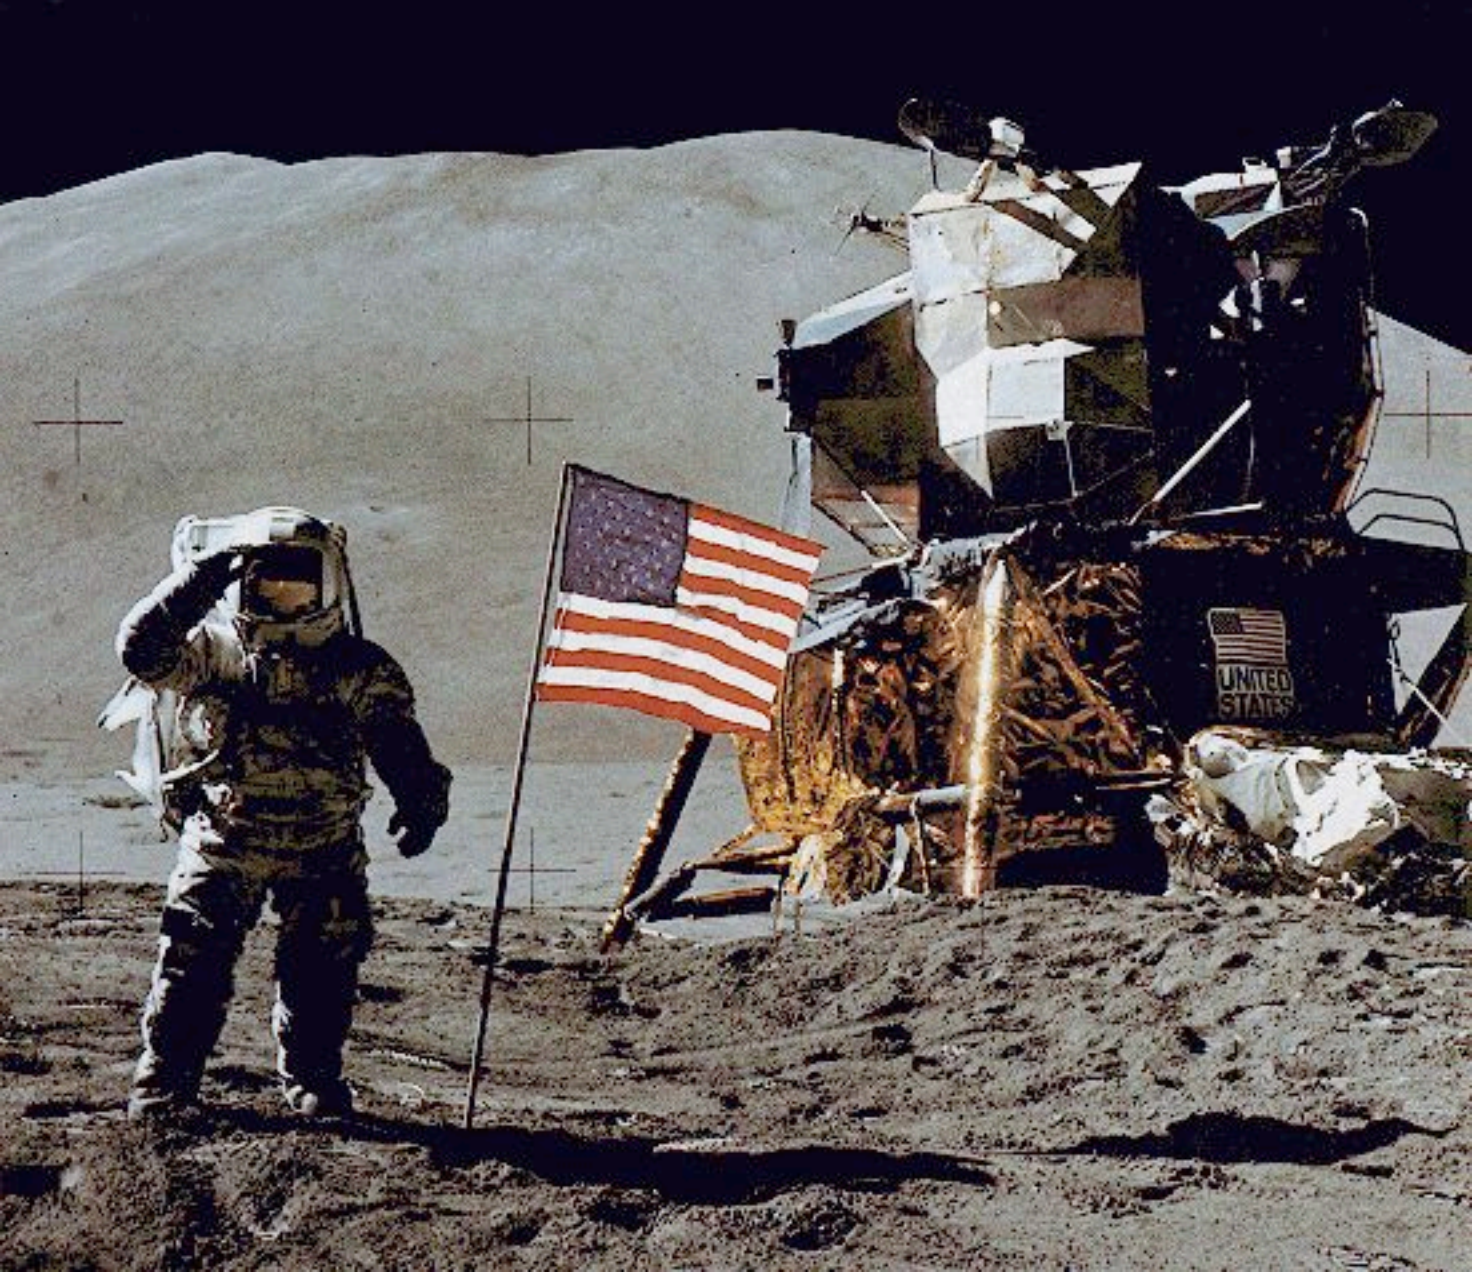

A Chesley Bonestell Space Art Chronology

Melvin H. Schuetz

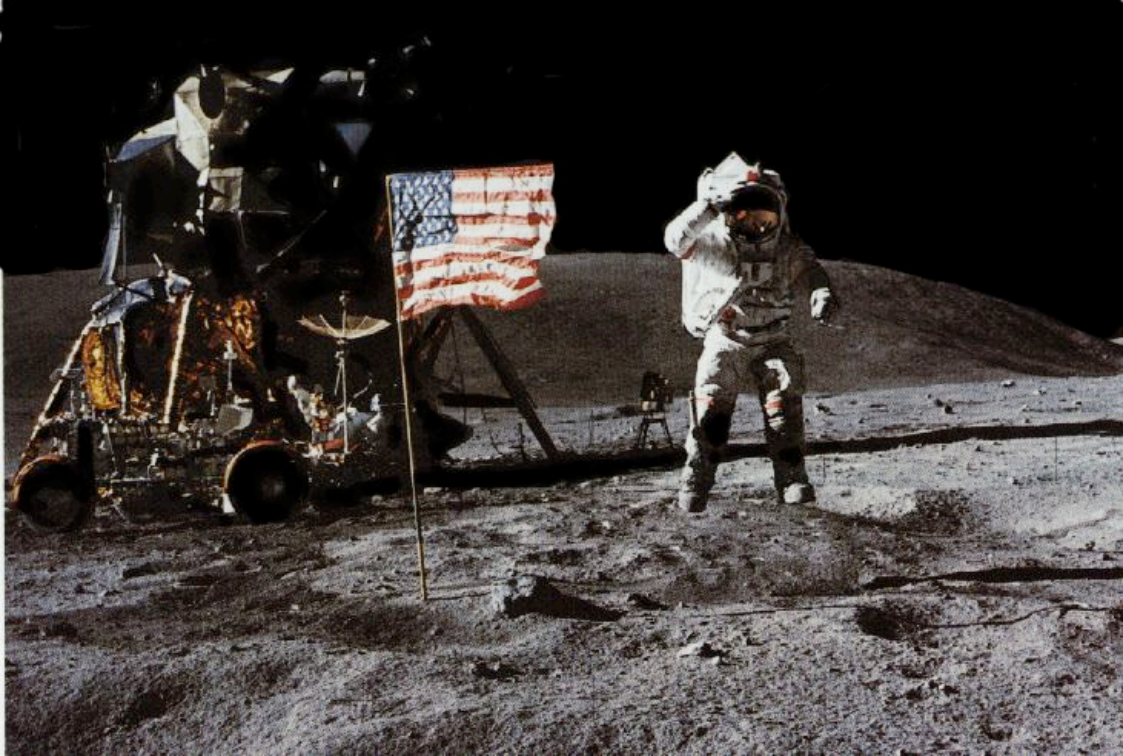

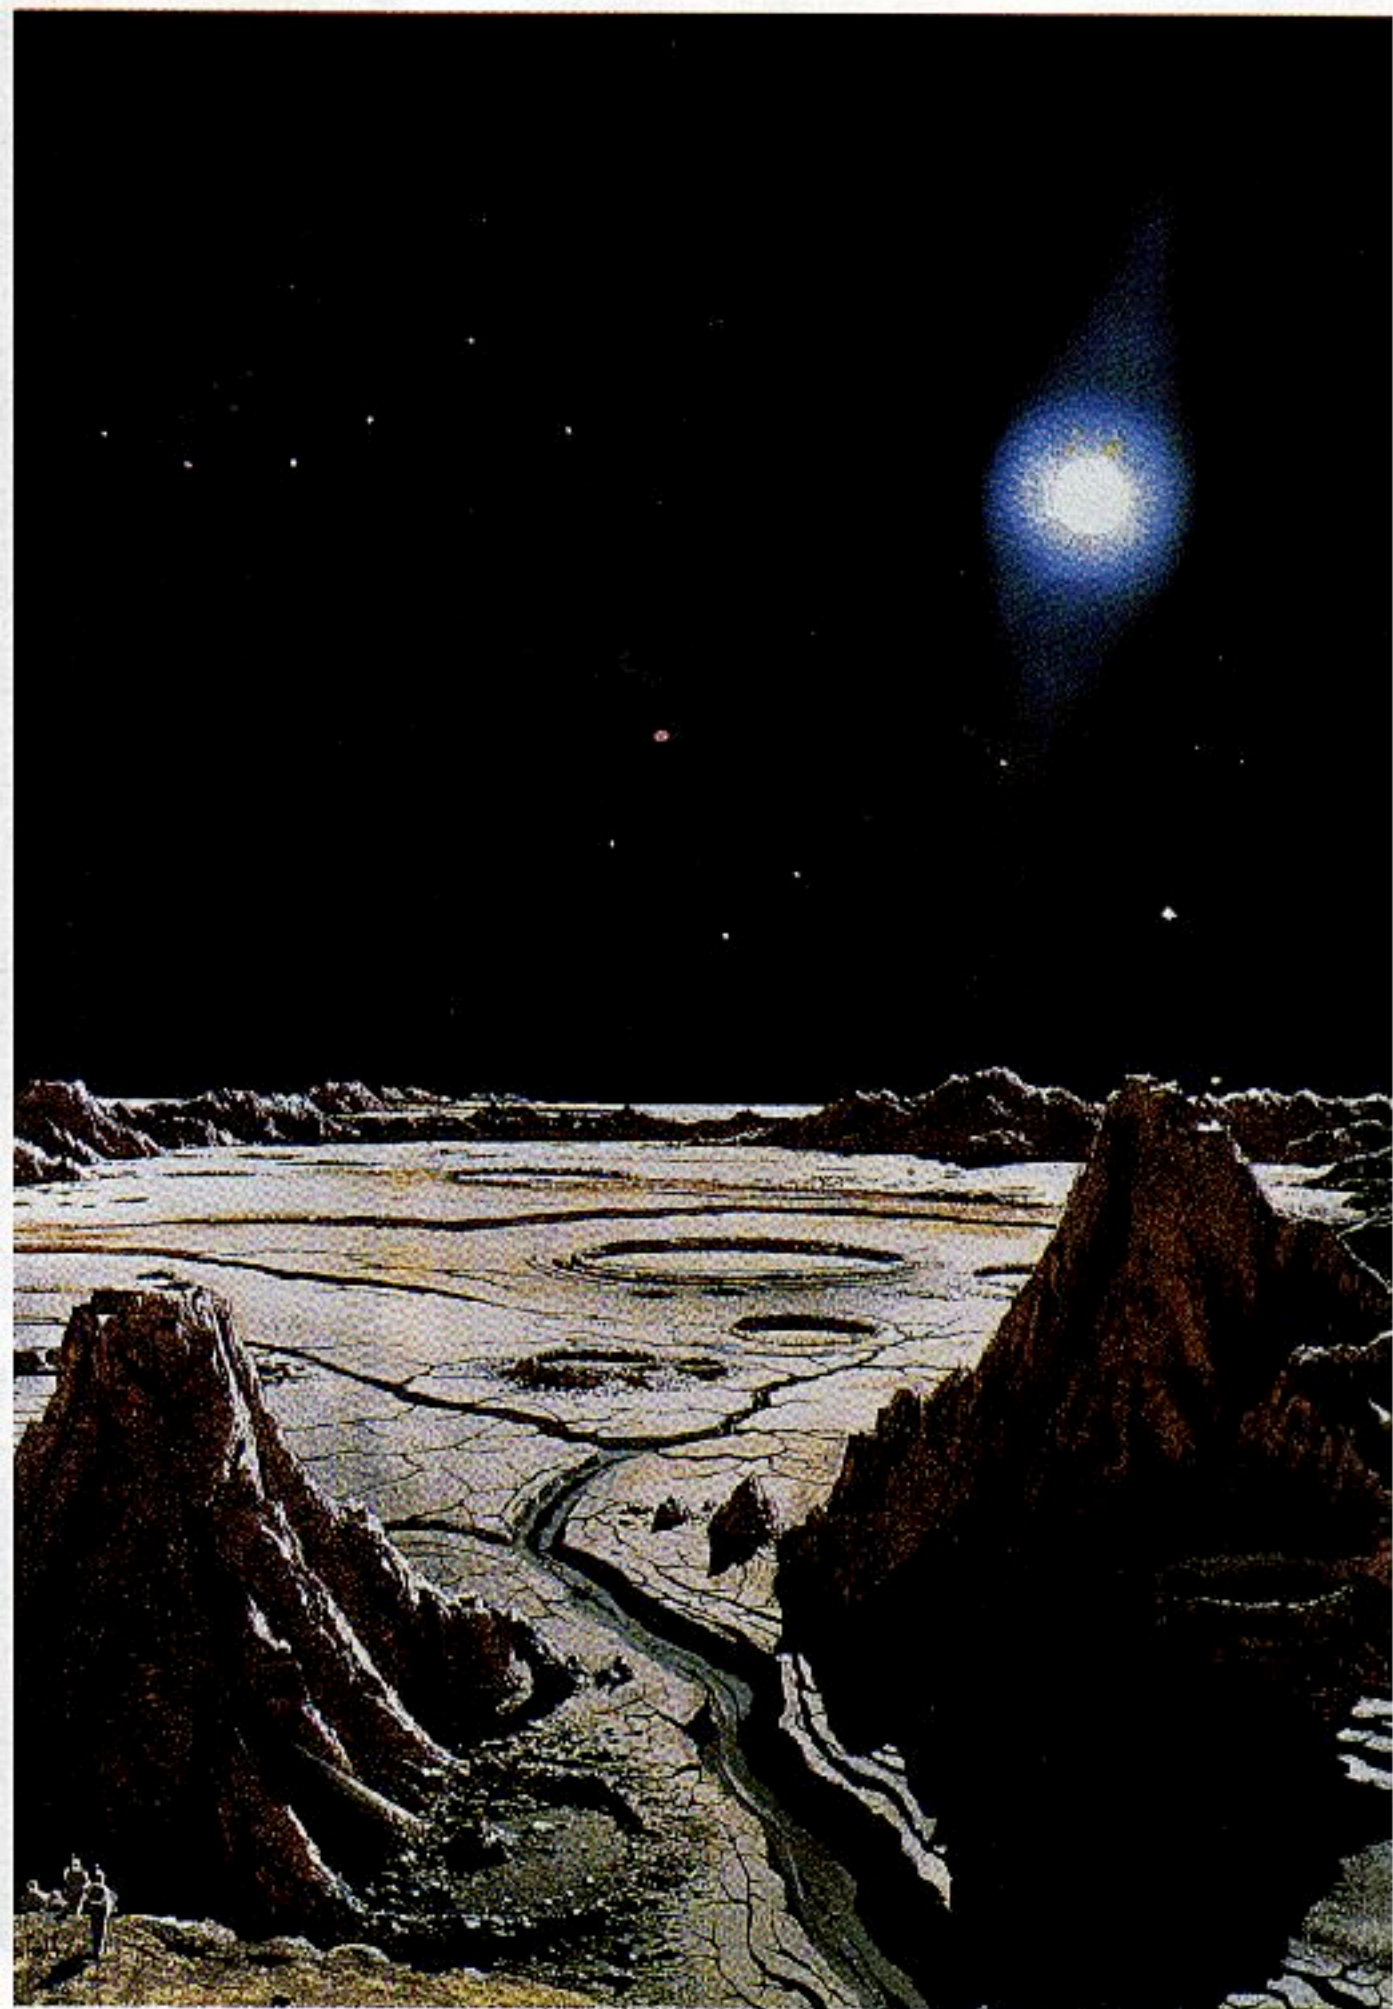

The Conquest of Space

Saturn as seen from Mimas

© Chesley Bonestell Estate

01992-0110

One arm of the "Collier's
space program": an
unmanned satellite 200
miles above Long Island.

The artist's vision of a body shop for Mars-bound spacecraft 1,075 miles above the earth.
